Jake Luecke

Software Engineer
Atlanta, GA | (225)-241-6586
luckyjake.me | github.com/jrluecke95 | linkedin.com/in/jake-luecke | jrluecke95@gmail.com

Software engineer who is ready and willing to pick up new technologies as needed. Prior to being a software engineer, I worked as a CrossFit coach at CrossFit Atlanta for 3 years. I worked alongside other employees to stay in contact with current clients and ensure they were having a positive gym experience. I also worked with prospective clients to introduce them to the gym and sell them on what we had to offer. Looking to transition to a position in the software engineer space and bring my real world, client facing skills into this new role.

Software Development Skills

JavaScript, Python, React, Redux, Express, Node.js, REST API, PostgreSQL, Bootstrap, HTML, CSS

Education

DigitalCrafts | Certificate in Software Engineering | Atlanta, GA   January 2021 – May 2021

Louisiana State University | B.S. Kinesiology | Baton Rouge, LA   August 2013 – May 2017

Software Development Portfolio

healthierU | https://healthieru.herokuapp.com | https://github.com/jrluecke95/healthierU   March 2021
- Worked with teammates to build a full-stack app that allows coaches and clients to register, sign-up, and interact with each other
- Allows coaches to view clients, assign workouts, and let clients view these workouts
- Mainly worked on the backend of this app setting up routes and our database using Postgres, Sequelize, Node.js, Express, Javascript, Insomnia, and Beekeeper
- Full-stack project built using Express.js, Postgres, JavaScript, HTML/CSS, and Sequelize

Wake-Up | jamondepot.club | github.com/Linustorvalds/jamondepot   February 2021
- Member of a 4 person development team that built an app that allows a user to access all of the things they might most need upon waking up for the day.
- Primary responsibility involved building out a stock-checking feature that allows users to see stock prices over a recent period of time as well as a feature that allowed users to interact with a progress bar for different goals.
- Became very familiar with working with REST API's and the process of fetching and parsing JSON data using jQuery and JavaScript along with the Chart.js package to chart out our stock information.

Professional Work Experience

CrossFit Atlanta | Coach and Program Manager | Atlanta, GA   November 2017 – January 2021
- Led up to 20 clients each class through workouts safely and efficiently all while ensuring a positive class experience
- Developed multiple programs for onboarding new members and interacting with current ones in conjunction with coworkers at the gym
- Worked with other coaches and gym employees to ensure member success and retention using CRM and other member-tracking software
- Learned how to collaborate within a small business and be productive with a small team and limited resources
